

Field Days Lecture Series
Location: Straw Bale Building L8
Speakers organised by Watershed Landcare

FRIDAY		
Time	Topic	Speaker
10.00am	How do I eat sustainably in the modern world? - Agro-ecologist, David Hardwick will de-mystify the modern food system and show how your choices impact on the environment, farmers and your health.	David Hardwick – Soil Land Food
11.30am	Solar Passive Design & Building With Natural Materials - The secrets of designing a home that's warm in winter and cool in summer using natural local products.	Sam Vivers - Strawbale Building Assoc & Viva Homes and Chris Nance - Traditional Timber Frames
1.30pm	For the love of pigs and good bacon - free ranging pigs on a small farm, the Power Pork story of paddock to plate.	Danielle Littlewood - Power Pork
3.00pm	Backyard Beekeeping - Keeping bees on a small scale is easy and something most people can do. Keeping bees is a rewarding pass time that helps the environment by providing pollination and as a bonus you get your own honey! Doug will walk through the types of hive, the basic equipment and the do and dont's of backyard beekeeping.	Doug Purdie - The Urban Beehive
